FRONT-END DEVELOPER

Medieinstitutet | Gothenburg

2022 - 2024

About Me

Newly graduated Front End Developer with previous experience in design, entrepreneurship, and customer relations. Educated at Medieinstitutet in Gothenburg, with skills in web development, including HTML, CSS, JavaScript, TypeScript, React, Next.js, Svelte, Node.js, MongoDB, API development, data modeling, testing, and agile methodologies such as Scrum and Kanban.

Experience

FRONT-END DEVELOPER | INTERNSHIP (LEARNING AT WORK PART 2)

Kruso Digital AB | Gothenburg

January - May 2024

- Collaborated in cross-functional teams within agile environments, actively participating in Scrum ceremonies using Jira for project management.
- Participated in client meetings to understand and fulfill requirements/needs.
- Responsible for joint implementation of E2E testing with Playwright in a Next.js codebase for multiple websites under the same corporate brand.
- Performed maintenance work in a Next.js codebase with TypeScript and Styled Components for multiple websites under the same corporate brand.
- Implemented code based on Figma designs from UX designers.
- Worked with Umbraco CMS for the launch of a new site for a specific client, developed and designed data models, data types, and functions using C#, ASP.NET, and Sass within the .NET platform. Implemented specific functionality using Alpine.js, and worked with components in isolation using Storybook.

FRONT-END DEVELOPER | INTERNSHIP (LEARNING AT WORK PART 1)

Lundgren+Lindqvist AB | Gothenburg

September - November 2023

- Developed a web application after a specific clients requirements, using HTML, CSS, JavaScript, Svelte, PHP, and WordPress CMS. The application included a product configurator integrated with WooCommerce.
- Coded and launched a responsive landing page for Västtrafik's 2023 recruitment event using HTML and CSS, based on designs in Figma.
- Gained deeper knowledge of the coding process by creating various code prototypes in Svelte and Node.js with REST Client.
